Rooftop Solar + Storage

Confidential. Prepared for Ocean RCS. Do not copy, forward or distribute without the written consent of Ocean RCS. Design specimen with illustrative figures and representative images. Do not use for any commercial purpose.

PREPARED FOR CLIENT NAME DATE 26 SEP 2026 STATUS SPECIMEN

01 SITE

The roof is ready and the service has room

A new TPO roof, clear array zones and an existing 2,000 A service mean the site can carry **about 412 kW** without a service upgrade.

◆ BOTTOM LINE **No service upgrade needed for the first phase.**

02 SYSTEM

Solar and storage sized to the building

ONE ARRAY, TWO CABINETS, ONE INTERCONNECTION.

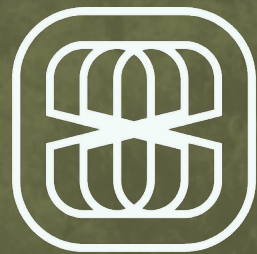

Representative image of a comparable storage installation.
